IMPORTANT INFORMATION ON MILITARY RETIRED PAY (Includes all Uniformed Services Retired Pay):
Submission of this application constitutes a waiver of military retired pay in an amount equal to VA compensation awarded, if you are entitled to both benefits. Your retired pay may be reduced by the amount of VA compensation awarded. Receipt of the full amount of military retired pay and VA compensation at the same time ***may*** result in an overpayment, which ***may*** be subject to collection. If you qualify for concurrent receipt of VA compensation and military retired pay, the waiver of retired pay will not apply. If you do not want to waive any retired pay to receive VA compensation, you should check the box in **Item 26**.

Note that if you check the box in Item 26, you will not receive VA compensation, if granted. If you are currently in receipt of VA compensation and you check the box in Item 26, your VA compensation will be terminated, if you are also eligible for military retired pay.

IMPORTANT: VA COMPENSATION PAY IS NON-TAXABLE. THEREFORE, VA COMPENSATION PAY MAY BE THE GREATER BENEFIT.

☐ **26. Do NOT pay me VA compensation. I do NOT want to receive VA compensation in lieu of retired pay.**

VETERAN'S SOCIAL SECURITY NO. 1 1 1 – 1 1 – 1 1 1 1

IMPORTANT INFORMATION ON SEPARATION/SEVERANCE PAY:
VA compensation, if granted, may be withheld to recoup any disability severance or separation pay such as involuntary separation pay, voluntary separation pay, or special separation benefit, you receive from your branch of service. In addition, if you receive a Voluntary Separation Incentive (VSI), your VSI payments may be reduced if you are awarded VA compensation. Receipt of VA compensation and VSI at the same time may result in an overpayment of VSI, which **may** be subject to collection.

27A. HAVE YOU EVER RECEIVED SEPARATION PAY, DISABILITY SEVERANCE PAY, OR ANY OTHER LUMP SUM PAYMENT FROM YOUR BRANCH OF SERVICE?

☐ YES (If "Yes," complete Items 27B through 27D)

☒ NO

27B. DATE PAYMENT RECEIVED (MM-DD-YYYY)	27C. BRANCH OF SERVICE	27D. AMOUNT RECEIVED (Provide pre-tax amount)
– –	☐ ARMY ☐ NAVY ☐ MARINE CORPS ☐ AIR FORCE ☐ COAST GUARD ☐ SPACE FORCE ☐ NOAA ☐ USPHS	$, .00

IMPORTANT INFORMATION ON INACTIVE DUTY TRAINING PAY:
You may elect to keep the active or inactive duty training pay you received from the military service department. However, to be legally entitled to keep your training pay, you must waive VA benefits for the number of days equal to the number of days for which you received training pay. In most instances, it will be to your advantage to waive your VA benefits and keep your training pay.

If you waive VA benefits to receive training pay by checking the box in **Item 28**, VA will retroactively adjust your VA award to withhold benefits equal to the total number of training days waived and at the monthly rate in effect for the fiscal year period for which you received training pay. This action may result in an overpayment of compensation, which ***may*** be subject to collection.

IMPORTANT: VA COMPENSATION PAY IS NON-TAXABLE. THEREFORE VA COMPENSATION PAY MAY BE THE GREATER BENEFIT.

☐ **28. Do NOT pay me VA compensation. I do NOT want to receive VA compensation in lieu of training pay.**

Date: March 3, 2025

Subject: Injury Statement for VA Claim Submission – Brain Disease

To Whom It May Concern,

I, **John A. Doe**, submit this statement in support of my VA claim for service-connected **Brain Disease**.

During my **deployment to Baghdad, Iraq (01/2010 - 01/2011)**, while stationed at **Camp Victory**, I began experiencing **numbness and tingling, loss of taste and smell, and vision problems**. These symptoms impacted my ability to perform my duties and daily activities, leading me to seek medical attention. As a result, I was **diagnosed with Brain Disease in July 2010**.

I received medical treatment for this condition at **Camp Victory Medical Facility** on the following occasions:

- **June 2010**
- **July 2010**
- **August 2010**

Current Treatment

To manage my condition, I am currently undergoing:

- **Cognitive Behavioral Therapy (CBT)** to help with emotional and behavioral symptoms.
- **Physical Therapy** to improve **mobility and balance**.
- **Prescription medication (Fluoxetine)** for depression and mood stability.

Impact on Daily Life

This disability has **significantly affected my cognitive abilities, emotions, behavior, physical function, and social interactions**. I struggle with **memory issues, emotional regulation, and coordination**, making it difficult to **work, maintain relationships, and do daily activities**.

The ongoing symptoms have resulted in **a significant decrease in my quality of life and independence**. My ability to engage in normal social interactions has deteriorated, making me feel **isolated and frustrated**.

Due to the persistent and debilitating effects of **Brain Disease**, I respectfully request that my medical history and service records be reviewed in support of my claim for service-connected disability benefits.

I certify that the information provided is true and accurate to the best of my knowledge. Thank you for your time and consideration.

Sincerely,
John A. Doe

To Whom It May Concern,

Subject: Medical Nexus Letter in Support of VA Disability Claim for John A. Doe

I, **Dr. William Stryker, MD**, am a licensed **orthopedic specialist** at **Houston Medical Group** and have been treating **John A. Doe** for **Brain Disease and its associated symptoms**. This letter serves as a **medical nexus statement** supporting his **VA disability claim** by providing my professional medical opinion regarding the relationship between his **current disability and his military service**.

Patient Information:

- **Patient Name:** John A. Doe
- **Patient Address:** 123 Veteran Rd., Houston, TX 12345
- **Primary Disability:** Brain Disease
- **Deployment Area:** Baghdad, Iraq
- **Deployment Date:** January 2010 – January 2011
- **Initial Diagnosis Date:** July 2010
- **Treatment Facility:** Camp Victory Medical Facility, Baghdad, Iraq

Medical History and Current Condition

Mr. Doe was diagnosed with **Brain Disease in July 2010** while stationed at **Camp Victory, Baghdad, Iraq**. Since his **initial diagnosis and subsequent treatment**, he has experienced **significant neurological, cognitive, and physical impairments** that continue to affect his quality of life. His symptoms include:

- **Numbness and tingling**, particularly in the extremities, suggesting neurological dysfunction.
- **Loss of taste and smell**, indicating potential brainstem involvement.
- **Vision problems**, affecting depth perception and coordination.
- **Cognitive impairments**, including difficulty with memory, concentration, and decision-making.
- **Emotional and behavioral disturbances**, including depression, anxiety, and mood instability.
- **Balance and mobility issues**, leading to frequent falls and difficulty walking.

Current Treatment Plan

Mr. Doe continues to undergo **multifaceted treatment and rehabilitation**, including:

- **Cognitive Behavioral Therapy (CBT)** to address emotional and behavioral symptoms.
- **Physical Therapy** to improve **balance, coordination, and mobility**.
- **Fluoxetine (Prozac)**, an **antidepressant medication to manage symptoms of depression and anxiety**.
- **Regular Neurological Evaluations** to monitor disease progression.

Despite these treatments, **his condition remains chronic and progressively worsens, significantly affecting his independence and ability to perform daily activities**.

Medical Nexus Opinion

Based on my **medical expertise, review of Mr. Doe's medical history, and clinical evaluation**, it is my professional opinion that:

1. **It is at least as likely as not (50% or greater probability) that Mr. Doe's Brain Disease developed due to his military service at Camp Victory, Baghdad, Iraq.**

Rationale for Service Connection

Brain Disease can be caused or exacerbated by **environmental exposures, head trauma, and chronic stress**, all of which are prevalent in military combat zones. Given that:

- **Mr. Doe was diagnosed with Brain Disease while on active duty** in **Baghdad, Iraq** in **July 2010**.
- **His symptoms first appeared during deployment and have progressively worsened since then**.
- **Exposure to hazardous environmental factors, high-stress conditions, and potential neurotoxins during deployment may have contributed to his condition**.

There is **strong medical evidence** supporting a **direct connection between his service and his current neurological condition**.

Impact on Daily Life

Mr. Doe's **Brain Disease has had a profound impact on his personal, social, and occupational life**, leading to:

- **Severe cognitive and neurological impairments**, preventing him from working or maintaining relationships.
- **Physical mobility issues**, requiring assistance for walking and daily tasks.
- **Social withdrawal and isolation**, due to depression and difficulty interacting with others.

- **Loss of independence**, requiring ongoing care and medical intervention.

Conclusion

Due to the **chronic, progressive, and life-altering nature of Mr. Doe's Brain Disease**, I strongly support his **VA disability claim for service connection**. His **documented in-service diagnosis, continued medical treatment, and significant neurological and functional impairments confirm that his condition is service-related and has severely impacted his quality of life**.

If any additional medical documentation or clarification is required, please feel free to contact my office at **(718) 242-5254**.

Sincerely,

William Stryker

To Whom It May Concern,

I, **Jenny Bragston**, am writing this letter in support of my friend, **John A. Doe's**, VA disability claim for **Brain Disease**. I have known John for many years and have personally witnessed the challenges he has faced due to his condition.

From **May 2020 to November 2020**, I observed John experiencing **difficulty living with Brain Disease**. During this time, I noticed that he struggled with **memory issues, confusion, and difficulty concentrating**. There were moments when he would forget important details, repeat himself in conversations, or seem disoriented in familiar settings.

John also experienced **physical symptoms such as dizziness, frequent headaches, and difficulty with coordination**. I have seen him lose his balance unexpectedly and take longer to process and respond during conversations. These symptoms have significantly impacted his ability to complete daily tasks, and I could tell that they caused him a great deal of frustration and stress.

His condition has also affected his **emotional well-being**. John has become more withdrawn over time, avoiding social interactions because of his struggles with communication and cognitive function. I have seen how these challenges have made him feel isolated and discouraged.

I am submitting this letter as a firsthand witness to John's struggles and to support his claim for the benefits and assistance he rightfully deserves. I certify that the statements in this letter are true to the best of my knowledge and belief. Please feel free to contact me at **(726) 402-6001** or **jennybragston@gmail.com** if any further information is needed.

Department of Veterans Affairs
To Whom It May Concern,

I, **John Hellman**, am writing this letter in support of my fellow service member, **John A. Doe's**, VA disability claim for **Brain Disease**. John and I served together in the same unit, and I have personally witnessed how this condition has affected his daily life and overall well-being.

From **July 2010 to June 2024**, I observed John struggling with **difficulty living with Brain Disease**. Over the years, I noticed changes in his **cognitive abilities, memory, and coordination**. During our time in service, John was sharp and highly capable, but as time went on, he began to struggle with **recalling information, processing thoughts, and staying focused on tasks**. There were times when he appeared confused, had difficulty concentrating, or forgot key details in conversations.

John's **physical condition also declined**, as he began experiencing **dizziness, balance issues, and frequent headaches**. These symptoms made it increasingly difficult for him to engage in physical activities that he once performed with ease. I also saw him struggle with **slurred speech and slowed reactions**, which at times made communication difficult.

Beyond the physical and cognitive symptoms, I also witnessed how John's condition **impacted his emotional well-being**. Over the years, he became more withdrawn, avoiding social interactions and showing signs of frustration and depression due to his declining abilities. It was evident that this condition placed a significant strain on his confidence and daily functioning.

John has had to **adjust his lifestyle drastically** due to these challenges, and I have seen firsthand how it has affected his independence and quality of life. I am submitting this letter as a firsthand witness to John's struggles and to support his claim for the benefits and assistance he rightfully deserves.

I certify that the statements in this letter are true to the best of my knowledge and belief. Please feel free to contact me at **(713) 444-5454** or **johnhellman@gmail.com** if any further information is needed.
